Dear Satnam Singh ji!

As you know an extremely Severe Cyclone 'Amphan' hit the coastal land of West -Bengal on 20th May-2020. Several teams of NDRF were deployed at various venerable areas of W.B. This natural disaster (Cyclone Amphan) was very complex in nature not only in terms of its severity but its occurrence coincided with the danger linking around in the form of a Pandemic Covid-19.

I appreciate 'IHA Foundation Volunteers' & 'Kolkata Response Group Team' who have actively come forward to help the affected & needy people of Kolkata and West Bengal during covid-19 crisis & Cyclone Amphan. They also supported NDRF teams deployed for restoration works like cutting, removing of trees and clearance of roads after cyclone Amphan.

With regards

Yours

Sincerely

(NISHITH UPADHYAY)
